Download Process

Thank you for purchasing another exciting mobile phone game from Gameloft.

To get this game on your handset simply follow these easy to use instructions:
Using the handset you want the game sent to type an SMS text message as follows;
Type in the word - Addict
Follow this by one space
Now enter the 12 digit PIN number found within this pack
Follow this by one space
Now enter the game code for this game which is - 262411
Your text message should look similar to this example:

Addict 123412341234 262411

Now send this text message to 80069 - You will only be charged for one standard SMS at your standard rate, your game will be sent to your handset shortly. You will need to have WAP enabled on your handset and the settings for this installed on your handset, for assistance on this please contact your networks customer service line and these settings can be sent to you, they can also advise on any charges you may incur.

National Rate Customer Service Helpline: 0870 400 3911

Game feature

Rayman takes you out onto the green of an 18-hole golf course!

Choose one of the 13 clubs at your disposal and do your best to tackle the obstacles that crop up throughout the course: skirt around trees and lakes, avoid the rough and, above all, don't get stuck in the bunkers! The wind also has a part to play... You must take into account its direction and force before aiming!

You can easily determine the strength and precision of your shot. When you reach the green, the whole game mode changes: Using the putter, show how accurate you can be, bearing in mind the indicated slope of the terrain.

There are two available game modes: you can practice your swing on one of the 18 holes or compete in a championship on the entire course. Save your scores and watch how your performance improves!

So ... get ready for the birdie? And watch out for the animated frogs!!
